Comments.

(1) Since February 1952, individual tank companies had continually moved to Chrdraf for short periods of practice firing. It is believed, however, that the troop movements beginning on 10 April 1952 are the first of a series going to Kindel where the units had also been for their summer training period in 1951. Several vehicles of the 21st Gds Mecz Div were observed in Kindel on 16 March 1952. They probably belonged to advance details.

25X1

(2) (3) The strength of troops indicate that the howitzer artillery regiments of the 21st Gds Mecz Div, the 39th and 57th Gds Itz Rifle Div have already arrived in Kindel. an advance detail of the 655th How Arty Regt of the 57th Gds Itz Rifle Div was also observed in Kindel on 1 April 1952.

(4) (5) According to observations the tank unit mentioned in paragraph 6 probably was the 1st Gds Tank Regt of the 8th Gds Mecz Div.

25X1

(6) The troops loaded at the Wurzen railroad station probably were elements of the 20th Gds Mecz Regt of the 8th Gds Mecz Div. (7) The unidentified engineer regiment of the Third Gds Mecz Army is stationed in Sperenberg.
